

PENETRATION TEST ATTESTATION LETTER

Prepared by **NCC Group plc**
Issued to **CloudNimbus Financial Cloud Services Ltd.**
Test completion date: **2025-01-22**

1. Statement of Engagement

NCC Group plc was engaged by CloudNimbus Financial Cloud Services Ltd. to conduct an independent black-box and grey-box penetration test of the in-scope production environment. Testing was performed during the four weeks ending 2025-01-22 by a CREST-registered team.

2. Scope

In scope: control plane API, customer self-service portal, identity provider integration surface, and external network footprint of LON1 and FRA2 regions. Out of scope: customer-tenant workloads (responsibility of customer), and the Datadog APM telemetry plane.

3. Methodology

Testing followed the OWASP Web Security Testing Guide (WSTG) v4.2 and PTES (Penetration Testing Execution Standard). Tactics are mapped to MITRE ATT&CK; Enterprise. Authenticated and unauthenticated test perspectives were used.

4. Findings Summary

0 Critical, 1 High (remediated), 4 Medium (3 remediated, 1 risk-accepted), 9 Low

5. Severity Distribution

Severity	Count	Status
Critical	0	-
High	1	Remediated
Medium	4	3 Remediated, 1 Risk-accepted
Low	9	Tracking

6. Retest

Retest of all remediated findings completed within 90 days of original report.

7. Limitations and Disclaimer

This attestation summarises a point-in-time security assessment. Findings are not exhaustive. The detailed technical report is subject to mutual non-disclosure and is available to authorised customer recipients under separate cover.
