

PENETRATION TEST ATTESTATION LETTER

Prepared by **Bishop Fox**
Issued to **QuantEdge Analytics Inc.**
Test completion date: **2025-08-04**

1. Statement of Engagement

Bishop Fox was engaged by QuantEdge Analytics Inc. to conduct an independent black-box and grey-box penetration test of the in-scope production environment. Testing was performed during the four weeks ending 2025-08-04 by a CREST-registered team.

2. Scope

In scope: customer-facing web application portal (<https://app.quantedge.example.com>). Out of scope: public REST/GraphQL API, SFTP gateway, mobile applications.

3. Methodology

Testing followed the OWASP Web Security Testing Guide (WSTG) v4.2 and PTES (Penetration Testing Execution Standard). Tactics are mapped to MITRE ATT&CK; Enterprise. Authenticated and unauthenticated test perspectives were used.

4. Findings Summary

0 Critical, 2 High (remediated), 6 Medium, 11 Low. Scope: web application portal only; public API and SFTP gateway out of scope.

Important note on scope. The customer-facing API (REST/GraphQL) and the SFTP data ingestion gateway were excluded from this engagement at the request of QuantEdge management.

5. Severity Distribution

Severity	Count	Status
Critical	0	-
High	2	Remediated
Medium	6	Remediated
Low	11	Tracking

6. Retest

Retest of all remediated findings completed within 90 days of original report.

7. Limitations and Disclaimer

This attestation summarises a point-in-time security assessment. Findings are not exhaustive. The detailed technical report is subject to mutual non-disclosure and is available to authorised customer recipients under separate cover.
